INSTRUCTIONS ON HOW TO USE CHEATSHEETS

The Major Arcana Cheat Sheet is very simple and self-explanatory, the minor and the court card ones need a bit of explaining.

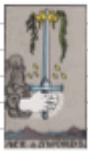

For the Minor Arcana and the Court Card sheets, they are set up like a grid. When you pick a card you look at the number of the card first, and then go to the left hand column and find that number. Then you look at the suit of the card and move to the right until you are under the suit column. So for example:

Let's say I pulled the 3 of Pentacles for my daily card, I would go under the THREE column on the left, and then look all the way to the right hand side under the "Pentacles" column, to the meaning: Collaboration; Planning; building a strong foundation.

Or if I picked the 2 of cups, I would go the TWO column on the left hand side, and then move over to the right under the "Cups" column to the meaning: Romantic Love; Equal Partnership; Attraction. The Court Card Cheat Sheet works the exact same way!

EXAMPLE SHOWS HOW TO LOOK UP THE KEY WORDS FOR THE 3 OF PENTACLES:
